

Program Synopsis Community Homes

Within the Community Homes umbrella we residentially support 43 Individuals that reside among 12 homes. Currently we support 12 individuals thru Supported Living Options, these individual's live independently throughout the community in either their own homes or rentals. This program offers minimal support hours weekly. Community Homes also consists of an Adapted Day Program. This program supports individuals who participate in various individuals in the community and within their own homes. This program is very successful for individuals as it allows Community Access and also provides less transition times within the day.

Currently we have 10 Team Leaders/CDP's, and approximately 60 staff within all programs.

Community Homes requirements should include but are not limited to:

Social Work/Rehab studies are recommended, staff should have the skills to encourage independence, understand and practice the philosophy "do with, not for". Experience with support plans, which can include Restrictive Procedures and or Positive. Have an understanding and ability to be follow and implement proactive strategies. Flexibility, creativity and innovation are critical skills within these roles as each day is different from the next.
